

Safe. Efficient. Strong.

Hydraulic Concrete Bucket

Maximize Efficiency & Safety with our Industrial Hydraulic Concrete Bucket

The Boscaro Hydraulic Concrete Buckets are heavy duty hydraulically operated concrete buckets available in a wide variety of sizes and designed to work as remote-control concrete bucket in conjunction with a mobile and/or tower cranes.

These systems' dumping mechanism is controlled by a wireless remote control from the crane cab or by designated personal working with your crane operator, who can be up to 100' away from the bin at time of offloading.

All Boscaro equipment meets or exceeds all ASME requirements and is certified for use across North America.

Boscaro products have proven time and time again their quality, safety, and durability. Boscaro products continue to offer significant value on our projects."

ED HAWTHORNE, Safety Manager
Walsh/PCL- JV II

"The best money we've ever spent on crane accessories."

MIKE DAWSON, President
Big Red Crane Company, Inc.
