

Safe. Efficient. Strong.

Hydraulic Clamshell Bucket

Save time and money with the DBR Series Hydraulic Clamshell Buckets from Boscaro.

The Boscaro A-400DR & A-800DR are hydraulically operated clamshell buckets designed to work as large volume transfer bins in conjunction with a mobile and/or tower cranes.

These systems' dumping mechanisms are controlled by a wireless remote control from the crane cab or by designated personal working with your crane operator, who can be up to 100' away from the bin at time of offloading.

All Boscaro equipment meets or exceeds all ASME requirements and is certified for use across North America.

FEATURES

- Remote control operation up to 100ft/30.5m
- Powered by a 24-volt lithium-ion battery with integrated charger
- No need for personnel to be inside operating area
- No temporary loading areas required
- Can be used in confined or space-restricted areas
- Meets or Exceeds all ASME Standards
- Certified for safety, strength, and longevity
- Durable powder-coated finish

"The best money we've ever spent on crane accessories."
