Taught by an accomplished Level 1 Rigger Certifier/Crane and Rigging Instructor, the Level 1 certification training program combines in-class content with practical experience. Students receive classroom theory and hands on practical training including calculating load weights, finding load center of gravity, rigging loads and making actual crane lifts giving direction to a crane operator. The goal of the Level 1 training program is to equip you for a safe career as a safe, knowledgeable and confident rigger.

Assessment

The assessment is completed by the instructor who is a Rigger Certifier. After you are certified as a Level 1 Rigger you will receive a Fulford Cranesafe picture ID wallet card valid for 5 years.

If you want to take the next step and become a certified crane operator, Bigfoot Crane Academy has many options to propel you into a high paying career as a fully certified Level A crane operator.

Course outline
