Looking to start your career? Join the heavy construction industry as a certified hoist operator in less than a week. Construction elevator operators are crucial on jobsites, and becoming one is a great step to a career as an equipment operator.

We at Bigfoot are proud to lead the industry with the highest standards in operations, training, and safety in our Hoist Operator Training program.

Graduates of This Program will be Able to :

- Demonstrate a Good Understanding of The Regulations that Apply to The Safe Use of Hoists
- Carry Out a Full Pre-start/shift Inspection of The Hoist and Record Their Findings
- Carry Out a Full Operational Inspection of The Hoist and Record Their Findings
- Operate The Hoist in Line with The Manufacturer's Operator Instructions / Manual
- Load The Hoist with Passengers / Goods as Per The Manufacturer's Instructions
- Deliver Passengers / Goods Safely and Efficiently
- Stop The Hoist at The Correct Levels
- Correct Use of Safety Gates
- Keep Within Safe Working Parameters of The Hoist
- Place The Hoist in an Out-of-service Condition, Isolate, and Secure
- Understand The Limitations of Use While Operating The Hoist
- Report any Problems or Defects

Operator Assessment & Certification

At the end of the hoist operator training course, the candidate should be able to achieve the required standards of the Technical Safety BC theory exam. Upon successfully completing the Elevating Devices Operator Exam, the candidate will receive an Elevating Devices Operator Certification Card. Booking the exam and related fees are the candidate's responsibility.
