The Self-Erect Tower Crane Operator Certification Program includes 4 core components:

- Level 1 Rigger Certification Course
- Common Core Crane Theory
- On-Crane Practical Training
- Full Scope Certification Assessment

After 7 days, you are fully prepared for your Full Scope Certification theory and practical exams to become a certified crane operator. Upon successful completion of the assessment, you become a certified Full Scope Self-Erecting Crane Operator with no restrictions.

Assessment

Assessment is completed by a Fulford Certification assessor, who determines if you pass or fail. After you are certified as a Full Scope Self-Erect Crane Operator, you may begin your career with no operating restrictions.

Course Outline

- Pre-operational Inspection
