About us

Since 2014 Bigfoot Crane Company has provided rentals, sales, parts, and servicing for tower cranes and hoists. Not only do we have the most diverse fleet of tower cranes in North America, but our team of experts is always on call to serve you.

Values

We perform every task with excellence in mind and create a customer service experience that keeps our phones ringing.

→ Integrity | → Solutions | → Be Legendary | → A**hole Free Zone

Community

Bigfoot Crane Company is deeply committed to community engagement, actively supporting local initiatives in the areas we serve.

Safety

We prioritize meticulous attention to detail and stringent adherence to safety standards to ensure the well-being of our team and your work site.

Experience

With a wealth of experience in the crane industry, Bigfoot takes on the seemingly impossible jobs that many others might avoid because of their complexity.

Tower Crane Sales

Bigfoot Crane Company provides a wide range of high - quality cranes designed to meet the unique demands of construction projects. Our inventory includes the latest models of tower cranes and self-erecting cranes, offering advanced technology for maximum efficiency and reliability. Whether you need powerful lifting solutions or versatile equipment for tight spaces, we have options to suit every project. With expert guidance and exceptional customer support, we ensure you find the perfect crane to keep your operations running smoothly. Bigfoot's Commitment To Legendary Crane Sales

Tower Cranes for Sale

Bigfoot Crane Company offers a variety of used tower cranes that have been meticulously maintained and are ready to meet the demands of your next project. Our used tower cranes for sale are an economical choice for those looking to maximize their budget without sacrificing quality or performance. Each crane undergoes a thorough inspection and refurbishment process, ensuring it meets the highest standards of safety and reliability. When you purchase a used tower crane, self-erecting crane, or luffing crane from Bigfoot Crane Company, you can trust that you're getting a machine that will perform efficiently and effectively, backed by our dedicated customer support.

01 Self-Erecting Cranes

Bigfoot Crane Company offers reliable, inspected used tower cranes that deliver quality performance at a lower cost, all backed by expert support.

02 Tower Crane Rentals

We provide tower cranes for rent, ideal for urban projects needing high lifting capacity, precision, and customization - with full delivery and setup support.

03 Luffing Crane Rentals

Our Liebherr luffing cranes are perfect for tight job sites, offering precise, flexible lifting. Rentals are customizable and come with expert guidance.

Bigfoot's Tower Crane Rentals

Bigfoot Crane Company offers a comprehensive selection of cranes designed to meet the demands of any project. Our crane rentals are available across Western Canada, providing you with top-tier equipment and exceptional service.

01 Self-Erecting Cranes

Bigfoot Crane Company offers an extensive self-erecting crane rental fleet, perfect for projects that require quick setup and efficient operation. Our self-erect cranes are designed to save time and reduce costs by minimizing the need for extensive assembly. With a range of sizes and capacities available, these cranes are ideal for a variety of job sites, from residential construction to more complex projects. Our rental services include expert consultation, delivery, and setup, ensuring that your equipment is ready to perform as soon as it arrives on-site. Trust Bigfoot Crane Company to provide reliable, high-performance self-erecting cranes that keep your project on schedule and within budget.

02 Tower Cranes

Bigfoot Crane Company offers a selection of tower cranes for rent, specifically designed for work in busy urban environments. Tower cranes are essential for modern construction, offering exceptional lifting capacity and precision in confined or congested areas. They excel in handling heavy loads and placing materials at significant heights, making them ideal for high-rise projects. Their modular design allows for easy assembly and customization to meet job site demands efficiently. Our tower crane rentals come with comprehensive support, including delivery, setup, and operational guidance, ensuring that your project proceeds smoothly and efficiently. Trust Bigfoot Crane Company to provide the ideal crane solution for your urban construction needs.

03 Luffing Cranes

Bigfoot Crane Company offers Liebherr luffing crane rentals, tailored to meet the needs of tight and challenging workspaces. Luffing cranes are specifically designed for urban environments and sites with restricted space, offering unparalleled flexibility and precision in lifting. These cranes are ideal for projects where space is limited, and high precision is required. Our rental options include luffing cranes that can be customized to suit your project's unique demands. With Bigfoot's expert support, you can be confident that your luffing crane will perform efficiently and safely, even in the most constrained conditions.

Crane Training Available

Industrial Hoist Sales

Bigfoot Crane Company a selection of hoists for sale, designed to meet the demands of your industrial or agricultural sites. Whether you need a single car or dual car hoist, our inventory features the latest models and technologies to ensure your operations run smoothly and efficiently.

Bigfoot's Commitment to **Legendary Hoist Sales**

At Bigfoot Crane Company, we offer top-quality industrial hoists for sale, built to meet the rigorous demands of any job site. Our hoists are designed for durability, performance, and safety, ensuring they deliver reliable results on even the toughest projects. We are committed to providing personalized service, helping you choose the right hoist to fit your specific needs. When you purchase from Bigfoot, you're not just getting industry-leading equipment—you're also gaining access to expert support and a dedication to safety and efficiency that ensures long-term success.

Why Choose Bigfoot for Your Management Needs?

At Bigfoot Crane Company, we pride ourselves on delivering exceptional service for all your crane and hoist needs. Our highly skilled technicians are dedicated to ensuring your equipment is safe, reliable, and operating at peak performance. We offer prompt, professional service tailored to your specific requirements, from routine maintenance to emergency repairs. Our commitment to excellence and customer satisfaction sets us apart in the industry, making us the preferred choice for crane and hoist services.

Why Choose Bigfoot for Crane Storage Services?

- Storing cranes in our yard reduces technician travel costs for maintenance between projects and ensures efficient loading and unloading for mobilizations.
- We provide a **storage report** that documents all crane parts and accessories upon arrival and serves as a **checklist** at the time of departure.
- Our storage rates include power washing of cranes and equipment upon arrival, annually if applicable, and before departure for the next project. (Min 3-month storage rental duration required.)
- We offer pre- and post-project equipment inspections for an additional fee.

General Storage

Bigfoot Crane Company offers secure and reliable general storage solutions to meet the needs of various industries. Whether you're storing equipment, machinery, or other valuable assets, our facilities provide a safe, high-security environment with features such as 8-foot fencing with razor wire and 24 / 7 security monitoring. We cater to both short-term and long-term storage requirements, ensuring that your equipment is well-protected and ready for use when needed.

Legendary Transloading Solutions

Since 2014, Bigfoot has been a trusted leader in managing oversized and complex loads. Our team ensures precision in transloading to minimize risks and delays, ensuring timely delivery.

Bigfoot prioritizes safety, following rigorous industry protocols and regular equipment inspections to ensure every transloading operation is conducted securely and safely.

In addition to transloading services, the advantage to having Bigfoot transport and store your equipment is we offer a multitude of additional services. From parts & service, crane & hoist rentals, accessories and more, Bigfoot provides turn-key solutions for your material handling needs.

Zone Control / Crane Accessories

Zone Control + Anti Collision Systems

Enhance safety and efficiency on your job site with Bigfoot Crane Company's Zone Control and Anti - Collision Systems. These advanced systems are designed to prevent crane collisions and improve operational control, ensuring safe, seamless coordination on busy sites.

01 Assessment and Installation

Bigfoot Crane Company offers a comprehensive assessment and installation service for Zone Control and Anti-Collision systems. Our team of experts thoroughly evaluates your job site to identify specific risks and operational needs, ensuring the systems are customized to fit your project. From defining restricted areas with Zone Control to preventing equipment collisions with Anti - Collision sensors, our installation service guarantees seamless integration with your cranes.

Bigfoot's professional installation ensures that your systems are properly set up for optimal performance, giving you peace of mind that your project is running as safely as possible.

02 Rentals

For projects requiring temporary safety solutions, Bigfoot Crane Company offers Zone Control and Anti-Collision systems for rent. Our rental packages are flexible, allowing you to choose the duration and setup that fits your project timeline and budget. These rental systems provide the same level of protection and efficiency as our permanent installations, ensuring crane operations run smoothly without the risk of collisions or zone breaches.

03 Sales

Bigfoot Crane Company provides Zone Control and Anti-Collision systems for sale, offering long term safety and operational improvements for your cranes. Purchasing these systems ensures you have ongoing protection against crane collisions and unauthorized zone entry, tailored specifically to your project's requirements.

Our sales team works closely with you to assess your crane operations, selecting the right solutions to enhance safety and boost efficiency. Once installed, these systems offer real-time monitoring, automatic adjustments, and detailed reporting, ensuring your site operates at peak safety and performance.
